3. New dental plan that GSC is proposing. Explain changes and gather feedback. (Presidents)

- The GSC is proposing a new dental plan. The cost for families will be approximately \$20 more per month than before.
- Pros: better coverage beyond preventative and diagnostic
- Cons: fewer dentists and higher rates
- Money is significantly saved for people who have serious problems, such as more than 3 cavities, a root canal, an impacted tooth removal, etc. For example, a root canal on the new plan would save you \$390 as opposed to \$48 on the old plan (amounts are calculated based on the cost for uninsured as opposed to insured).
- Thoughts?

4. Concerns over appropriate and polite use of the Westgate forum (Presidents)

- Several residents have expressed concern of the appropriate use the Westgate forum. We need to discuss the appropriate way to discuss problems with facilities and management rather than allowing impolite tirades.
- What is appropriate use in the above circumstances? How do we “enforce”/ensure polite use?
